Medicare/Medicaid: CMS Announces New **Conditions Of Participation For Hospitals.**

PART 482--CONDITIONS OF PAR-TICIPATION FOR HOSPITALS

Sec. 482.13 Condition of participation: Patient's rights.

(g)(1) With the exception of deaths described under paragraph (g)(2)of this section, the hospital must report the following information to CMS by telephone, facsimile, or electronically, as determined by CMS, no later than the close of business on the next business day following knowledge of the patient's death:

(i) Each death that occurs while a patient is in restraint or seclusion.

(ii) Each death that occurs within 24 hours after the patient has been removed from restraint or seclusion.

(iii) Each death known to the hospital that occurs within 1 week after restraint or seclusion where it is reasonable to assume that use of restraint or placement in seclusion contributed directly or indirectly to a patient's death, regardless of the type(s) of restraint used on the patient during this time. "Reasonable to assume" in this context includes, but is not limited to, deaths related to restrictions of movement for prolonged periods of time, or death related to chest compression, restriction of breathing, or asphyxiation.

(2) When no seclusion has been used and when the only restraints used on the patient are those applied exclusively to the patient's wrist(s), and which are composed solely of soft, non-rigid, cloth-like materials, the hospital staff must record in an internal log or other system, the following information:

is in such restraints.

(ii) Any death that occurs within 24 from such restraints.

(3) The staff must document in the padeath was:

or

system for deaths described in paragraph (g)(2) of this section.

Conditions of The new **Participation** take effect July 16, 2012.

Subjects affected by the new regulations include:

Reporting of restraintrelated deaths:

Nursing care plans;

Administration of medications and blood transfusions:

Standing orders. verbal orders and authentication of orders: and

Infection control.

In addition to the excerpts reproduced here verbatim we have placed CMS's entire forty-three page May 16, 2012 Federal Register announcement on our website at www.nursinglaw.com/ CMS051612.pdf with the new regulations beginning on PDF page 41, Federal Register page 29074.

FEDERAL REGISTER May 16, 2012 Pages 29034-29076

(4) For deaths described in paragraph (g) (2) of this section, entries into the internal dures. (i) Any death that occurs while a patient log or other system must be documented as follows:

(i) Each entry must be made not later hours after a patient has been removed than seven days after the date of death of the patient.

(ii) Each entry must document the patient's medical record the date and time the tient's name, date of birth, date of death, signed by a practitioner who is authorized name of attending physician or other li- to write orders in accordance with State (i) Reported to CMS for deaths de- censed independent practitioner who is law and hospital policy, and who is responscribed in paragraph (g)(1) of this section; responsible for the care of the patient as sible for the care of the patient as specified specified under Sec. 482.12(c), medical under Sec. 482.12(c). (ii) Recorded in the internal log or other record number, and primary diagnosis(es).

(iii) The information must be made available in either written or electronic form to CMS immediately upon request.

Sec. 482.23 Condition of participation: Nursing services.

(b) (4) The hospital must ensure that the nursing staff develops, and keeps current, a nursing care plan for each patient. The nursing care plan may be part of an interdisciplinary care plan.

(c) Standard: Preparation and administration of drugs.

(1) Drugs and biologicals must be prepared and administered in accordance with Federal and State laws, the orders of the practitioner or practitioners responsible for the patient's care as specified under Sec. 482.12(c), and accepted standards of practice.

(i) Drugs and biologicals may be prepared and administered on the orders of other practitioners not specified under Sec. 482.12(c) only if such practitioners are acting in accordance with State law, including scope-of-practice laws, hospital policies, and medical staff bylaws, rules, and regulations.

(ii) Drugs and biologicals may be prepared and administered on the orders contained within pre-printed and electronic standing orders, order sets, and protocols for patient orders only if such orders meet the requirements of Sec. 482.24(c)(3).

(2) All drugs and biologicals must be administered by, or under supervision of, nursing or other personnel in accordance with Federal and State laws and regulations, including applicable licensing requirements, and in accordance with the approved medical staff policies and proce-

(3) With the exception of influenza and pneumococcal polysaccharide vaccines, which may be administered per physicianapproved hospital policy after an assessment of contraindications, orders for drugs and biologicals must be documented and

Medication Error: Hospital Admits Liability, Patient **Appeals Verdict.**

he patient was brought to the E.R. for an allergic reaction to a bee sting.

The E.R. physician ordered sub q epi-

The E.R. nurse gave the second dose

The nurse stood by to monitor the parate jumped from 101 to 190 and her BP

The E.R. physician was called in and sent the patient to the ICU. Supraventricular tachycardia, a reaction to the IV epinephrine, subsided after about one minute but the patient was kept in the ICU for eight hours before being sent home.

This medication error could have caused permanent damage to the heart and peripheral nervous system, but there was no evidence it did so in this case. COURT OF APPEAL OF LOUISIANA

May 2, 2012

In the patient's lawsuit the hospital

The patient appealed the jury's verdict sonably low. The Court of Appeal of Louisiana upheld the jury's verdict.

The nurse monitored the patient for a provement (QAPI) program and training reaction and there was an appropriate response when the reaction occurred. The nurse and her employer never tried to hide the fact the nurse made a mistake or that the mistake caused painful and frightening consequences for the patient. However, the patient's own cardiologist and a consulting psychiatrist discounted the extensive long-term physical and emotional injuries the patient was claiming. Langley v. American Legion Hosp., 2012 WL 1521520 (La. App., May 2, 2012).
